examines how emerging media have undermined the effectiveness of prevailing mass marketing models. At the same time, emerging media have created an unprecedented opportunity for businesses to

redefine how they communicate with customers by leveraging the power of increasingly interconnected media channels. Bryan and Jeffrey Eisenberg don't simply explain this shift in paradigm; *Waiting for Your Cat to Bark?* introduces Persuasion

takes apart the persuasion process, breaks down the steps and gives practical ways to tailor your approaches to your varying real customers in the real world. This book is at a high level that marketers better hope their competitors will be too lazy to
