## Guide

~~Aashto roadway lighting design guide~~

~~Gendelguitars.com~~

The roadway lighting system design is based on pavement luminance. Luminance is defined as the amount of light reflected from a surface

# Where To Download

that the eye perceives (in  $\text{cd}/\text{m}^2$ ). More specifically, pavement luminance refers to how bright the pavement appears. Luminance quantifies the visual environment with respect to how a motorist will view it.
