Before she agreed to tutor Tucker Price, college junior Scarlett was introvert, struggling with her social anxiety and determined to not end up living in a trailer park like her mother and her younger sister. A mathematics major, she goes to her classes, to her job in the tutoring lab, and then hides in the apartment she shares with her friend, Caroline. With his eligibility is at risk, the university chancellor dangles an expensive piece of computer software for the math department if Scarlett agrees to privately tutor him. But from her first encounter, she realizes Tucker isn't the person everyone else sees. He carries a mountain of secrets which she suspects hold the reason to his self-destructive behavior. But the deeper she delves into the cause of his pain, the deeper she gets sucked into his chaos. Will Scarlett find the happiness she's looking for, or will she be caught in Tucker's aftermath?

****Intended for mature readers due to sexual content and language**** While fashion design major Caroline Hunter may have been born economically unlucky, in college, she's been lucky in love. Until her senior year at Southern University. She's gone from a serious long term boyfriend to a string of crappy dates. Then she meets mathematics grad student Reed Pendergraft. Reed is everything she's not looking for. Serious. Headed for a low paying university job. Boring. Caroline spent the first eighteen years of her life wondering where her next meal was coming from. She sure wasn't getting trapped in that life again with a man living on a professor's salary. An encounter with Reed in a club proves she might have pegged him wrong. He brings out a lusty side she never knew she had. But just when she's about to give in to her hormones, Reed makes a fool out of her. When she shows up for the first committee meeting for Southern University's Fall fashion show, a fundraiser for underprivileged kids, Caroline's horrified to discover the insufferable Reed is the committee chairman. While she refuses to tolerate his totalitarian rule of the committee, she's not sure she'll survive the month with her heart and her pride intact. Just when she thinks she has everything figured out, she finds that her entire life has been redesigned, thanks to Reed Pendergraft. ********* Redesigned is a lovely surprise in all the best ways - how quickly you'll fall for the characters, their unstoppable chemistry, and the ability of their story to take you from laughing to crying and back again. Denise has hit the New Adult nail on the head with this one, and I loved every single page! Lyla Payne, author of Broken at Love, USA Today bestseller The title of this book is apropos on several levels; not only does it fit the story, but it serves to express the way in this book is major leap forward for the author. She didn't merely write the next book in the series, she pushed forward and took risks, redesigned her approach to the story she was telling. Bravo, and I can't wait for more. Jasinda Wilder, author of Falling Into You, New York Times and USA Today bestseller

Lexi Pendergraft has given up on finding love after a disastrous encounter with her last boyfriend. Instead, she focuses on two things: One, setting up a summer program for underprivileged middle-school aged students. And the second, getting to the bottom of her brother Reed's recent strange behavior. His secret is destroying his relationship with his fiancée Caroline, and Lexi will do anything to help him save it. Especially after he gave up his dream to give Lexi a chance at a semi-normal college experience, something her parents threatened to steal from her after her rape a year ago. Ben Masterson is determined to make it through his final semester of his senior year at Southern University. After recently losing his full ride scholarship, he's suffering from sleep deprivation while trying to keep up with his mechanical engineering courses and working three part time jobs. He thinks he's lucked out getting a job in the university math lab. The only problem is his boss-Reed Pendergraft. As part of a role in a community theater play, Lexi wears a black wig and feels a confidence she hasn't experienced in over a year. When she wears it to a bar close to the theater, she doesn't think Ben, a bartender there, recognizes her. While Ben's intrigued about what she's up to, he's smart enough to stay far away from his overprotective boss's sister. Until fate forces him to help her, but why won't she tell him her real identity?

Bookstore owner Aubrey Barnes likes his quiet, orderly London life, thank you very much. His shop may be struggling, his only employee is a menace, and his plumbing is one creaky pipe away from disaster, but he can handle it. Maybe. He cannot, however, handle the film company that's thrown his Soho street into chaos. And he definitely can't handle the charismatic American actor Blake Sinclair. Which is why he's extremely reluctant to lease out his shop as a set for Blake's film, but it's his one opportunity to save his business. Now he can't get away from the distractingly hot actor. Then Aubrey finds himself alone with Blake in a trailer, and what happens next turns London's heat wave into an inferno that leaves him breathless. Aubrey is not cut out for the high-profile life of dating a celebrity, especially an American actor who's not even out yet. Good thing their tryst is absolutely not going anywhere. Of course, when you expect nothing, that's exactly when it starts to mean everything.

A new history of school desegregation in America, revealing how girls and women led the fight for interracial education The struggle to desegregate America's schools was a grassroots movement, and young women were its vanguard. In the late 1940s, parents began to file desegregation lawsuits with their daughters, forcing Thurgood Marshall and other civil rights lawyers to take up the issue and bring it to the Supreme Court. After the Brown v. Board of Education ruling, girls far outnumbered boys in volunteering to desegregate formerly all-white schools. In A Girl Stands at the Door, historian Rachel Devlin tells the remarkable stories of these desegregation pioneers. She also explains why black girls were seen, and saw themselves, as responsible for the difficult work of reaching across the color line in public schools. Highlighting the extraordinary bravery of young black women, this bold revisionist account illuminates today's ongoing struggles for equality.
