The International Olympiad on Astronomy and Astrophysics is a globally known competition for high school students under the age of 20 years. Its main focus is on basic Astronomy, Physics and Mathematics, and has been said as very difficult and highly competitive. Out of the 60000 students who give the first stage of this exam, only 4-6 manage to qualify through all rounds to reach the final round which is the IOAA.

This edited volume contains 24 different research papers by members of the History and Heritage Working Group of the Southeast Asian Astronomy Network. The chapters were prepared by astronomers from Australia, France, Germany, India, Indonesia, Japan, Malaysia, the Philippines, Scotland, Sweden, Thailand and Vietnam. They represent the latest understanding of cultural and scientific interchange in the region over time, from ethnoastronomy to archaeoastronomy and more. Gathering together researchers from various locales, this volume enabled new connections to be made in service of building a more holistic vision of astronomical
