"Bounding Biomedicine makes a groundbreaking methodological contribution to the rhetoric of health and medicine through its innovative variation of a rhetorical-cultural approach. In the process of examining a contextualized historical moment of boundary negotiation from multiple perspectives, Derkatch shows how rhetorical analysis can be culturally informed and multiangled, but also focused and fine-grained."

Bounding Biomedicine: Evidence and Rhetoric in the New ...
Set against the backdrop of evidence-based medicine, it examines the rhetorical constituents of biomedical boundary work by analyzing a set of CAM ... More This book investigates scientific studies of complementary and alternative medicine (CAM) as episodes of scientific boundary work that shift, and then seek to fix, the boundaries between what counts as proper medical science and what does not.

During the 1990s, an unprecedented number of Americans turned to complementary and alternative medicine (CAM), an umbrella term encompassing chiropractic, energy healing, herbal medicine, homeopathy,

Bounding Biomedicine, Evidence and Rhetoric in the New ...
Bounding Biomedicine centers on this boundary-changing era, looking at how consumer demand shook the health care hierarchy. Drawing on scholarship in rhetoric and science and technology studies, the book examines how the medical profession scrambled to maintain its position of privilege and prestige, even as its foothold appeared to be crumbling.
