A Fresh Cup of Tolerance pioneers a coherent, practical theology of the burgeoning universalism movement. It builds on broad spiritual foundations from Native American, Asian, Neopagan, Judeo-Christian, and Islamic traditions. Pragmatic and straightforward, it addresses the most pressing global dilemmas of our time: environment, globalization, feminism and gender issues, religious strife, oppression, poverty, war, and prejudice. Theologically, it systematically explores our many views of God; good, evil, sin, and suffering; revelation; spirituality in the digital age; the spirit of love and community; and so on. However, it is not a pleasant treatise on love. It is a living, faith-in-action, theology free of rigid words (Scriptures), beliefs (dogma), or practices (rituals). With seven billion people on the planet, many more to come, cooperating and living (loving) together is a survival essential. In a crisis, our best nature surfaces—but we seem unable to sustain a sense of true community and compassion for more than a few CNN weeks at a time. It is a spiritual priority to seek a means to sustain a loving community for longer periods—whether within the family, the community, the larger society, or the world. A theology of universalism offers a pathway of hope.

Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.
