Introduction. When asked what would make their working life easier or how they could be better supported to deliver the care to which they aspire, nurses most often say "better staffing", according to a body of research evidence linking nurse staffing with staff wellbeing, care quality and patient outcomes (Bridges et al, 2019; Aiken et al, 2012).

Wellbeing support line and learning modules . Barchester Healthcare set up a COVID-19 support line for its staff, giving them the opportunity to share any worries they may have with other staff who have more experience of working in a care home environment. Recognising the key role of manager in supporting staff wellbeing, it also created some specific learning modules on leading through a crisis.
