These are the answers to the chapter-end questions in the 9 th edition of Chang's Chemistry.. If you have a different edition of the text, do not despair. Most of the questions have the same numbers, and where they are different, you should readily be able to decipher the answer(s) to match the question(s); they will not be off by very many numbers.

Designed for the two-semester general chemistry course, this textbook features a clear writing style, and problem-solving strategies. It strikes a balance between theory and application by incorporating real examples, and helping students visualize the three-dimensional atomic and molecular structures that are the basis of chemical activity.
