The Major Trauma Group will operate on a not-for-profit basis and aims to recruit medical practitioners to help advise it. The group says trauma patients leaving hospital often have limited knowledge of how to access rehabilitation services, and the group aims to be a source of information for them as well as directing them to appropriate legal services, and lobbying on policy issues.

Aim Major trauma (MT) has traditionally been viewed as a disease of young men caused by high-energy transfer mechanisms of injury, which has been reflected in the configuration of MT services. With ageing populations in Western societies, it is anticipated that the elderly will comprise an increasing proportion of the MT workload. The aim of this study was to describe changes in the ...

Background Major trauma (Injury Severity Score (ISS) ≥ 16) in older people is increasing, but concerns persist that major trauma is not always recognised in older patients on triage. This study compared undertriage of older and younger adult major trauma patients in the major trauma centre (MTC) setting to investigate this concern. Methods A retrospective review of Trauma Audit and Research ...
