This is one volume in a library of Confederate States history, in twelve volumes, written by distinguished men of the South, and edited by Gen. Clement A. Evans of Georgia. A generation after the Civil War, the Southern protagonists wanted to tell their story, and in 1899 these twelve volumes appeared under the imprint of the Confederate Publishing Company. The first and last volumes comprise such subjects as the justification of the Southern States in seceding from the Union and the honorable conduct of the war by the Confederate States government; the history of the actions and concessions of the South in the formation of the Union and its policy in securing the territorial dominion of the United States; the civil history of the Confederate States; Confederate naval history; the morale of the armies; the South since the war, and a connected outline of events from the beginning of the struggle to its close. The other ten volumes each treat a separate State with details concerning its peculiar story, its own devotion, its heroes, and its battlefields. Volume 11 is Texas.

This book has been considered by academicians and scholars of great significance and value to literature. This forms a part of the knowledge base for future generations. Ira Berlin offers a framework for understanding slavery's demise in the United States. Emancipation was not an occasion but a century-long process of brutal struggle by generations of African Americans who were not naive about the price of freedom. Just as slavery was initiated and maintained by violence, undoing slavery also required violence.
