Lord Gabriel Phel wants one thing: to rebuild the shattered fortunes of his people and restore his ruined house to its former station in the Convocation's highest tiers of elegant society. Fortunately, through a wild chance of birth, he was born with powerful wizard magic, the first in his family in generations. If he can obtain a familiar to amplify his magic, a highborn daughter he can marry, to be mother to his children, he'll be that much closer to saving his family. With her by his side, he can ascend to such a position of power in the Convocation that he can destroy it forever. Lady Veronica Elal, captive in her tower, has only one way out. To her bitter disappointment, she will never be a wizard. Instead, through a twist of fate, and despite her expensive Convocation Academy education, Nic is doomed to be a familiar like her mother. Forced to participate in the Betrothal Trials, she receives a wizard suitor for one night each month. Whichever man impregnates her will bond her to them forever. With no choice but to serve the one who wins her, Nic has one hope for control over her life: a wizard she can manipulate. Gabriel Phel seems like the perfect choice for Nic's gambit—he's desperate and untutored in wizardry—but within moments of meeting him, she feels the bonds of magic tying them together. Afraid of losing her will to the compelling wizard who touches her heart like no other, Nic does the unthinkable: she runs. Pregnant and alone, Nic eludes monstrous hunters, searching for a safe haven. But when Gabriel catches up to her, their adventure has only begun.

Being born a royal has been the wish of many Freedonian children. One could only imagine what it would be like to live in a castle, having your every need taken care of and one day becoming a king or a queen. These are the things that dreams are made of. As the young Connors twins wake to find their clothes pressed and laid out for them, Prince Charlie and Kelly have no idea of the evil that is coming their way. The life they had come to know is about to come to an end. As they head to breakfast, they know that they might be eating alone, again. They understand why their parents, Prince Charles and Lady Catherine, won't be there. The health of their ailing grandfather, the Wizard King of Freedonia, is declining. He has much to pass on to his heir and not much time left to do it in. If that is not bad enough, Drake Aldric, the Commander of the Castle Guards and Freedonian Army has canceled their tenth birthday party because of a threat to the royal family. There will be no friends, presents or red berry fizzlespitches. Drake Aldric is following the Guard manual to the letter. Due to the threat, he has tripled the number of guards, moved the army closer to the village and won't let any royal out of the royal quarters without armed security guards. Even the twin's three godfathers didn't come to see them on their birthday. Molly and Mick McGruter and Sarah and Patrick Magee know why, but didn't have the heart to tell the twins that their godfathers had been accused of trying to kill a pub keeper in the village. Not one of them believed it, but couldn't understand why they ran away. What follows is what nightmares are made of.

GLOBAL WARMING HEATS UP MAGIC. Chicago Post V3.1 Global warming affects life on earth in unexpected ways. Magic intensifies, spreads and goes public. GOVERNMENTS REGULATE MAGIC. LA Tribune, 9.0.2 Danger from Dark Magic swells. Politicians panic. Ten years ago the world was shaken with the discovery that White and Black magic existed. Despite the headlines, like most people, nothing magical has happened in Sig's life. As he prepares to leave for college, mysterious Great-Grampa Thor shows up with injuries sustained in a battle with a Dark Wizard. He bestows upon Sig, his only male heir, a magical family heirloom. He's to lead in the fight against Dark Magic. Unfortunately, Sig can only access a small portion of the talisman's power. His only magic is the ability to change into a 9 foot tall, 700 pound warrior. It's small benefit in the age of machinery, rockets, and computers. The Dark Wizard comes after Sig. He escapes, but Great-Grampa falls victim to a demon induced coma before he can teach Sig what he needs to know. Sig joins with a group of fellow supernaturals. His new friends help him fight off more attacks while he searches desperately for his greater magic. If he can't stand on his own against a Dark Wizard, how can he take his place at the front of the world's fight against black magic?
