"Brightly colored catalogue produced for Sherwin-Williams Paints by famed artist, Rockwell Kent, who designed the brochure. With seventy-two paint chips mounted including glossy, flat, semi-lustre and stains and varnishes. Includes numerous room interiors -- living room, bedroom, dining rooms, bathrooms, and kitchens -- with some color photography as well. Also exteriors displaying other color combinations. Inside of back foldout includes a biography of Rockwell Kent." -- Descriptions from The Book Press, bookseller.

YOU CAN'T MAKE THIS STUFF UP! Here is a hilarious collection that catches real-life knuckleheads in outrageous acts of brazen stupidity, giving new meaning to that famous four-letter word: "DUH"! * The Oregon resident who was waxing his 1984 Pontiac--and somehow managed to shove the antenna up his nose . . . GRANDMOTHER OF EIGHT MAKES HOLE IN ONE * The Atlanta Braves pitcher who was treated for five-inch-long welts after he tried to iron his polo shirt while wearing it . . . MINERS REFUSE TO WORK AFTER DEATH * The inmate at a Chesapeake Correctional Facility who filed a five million dollar lawsuit against himself . . . DRUNK GETS NINE MONTHS IN VIOLIN CASE * The woman who couldn't stand the discomfort of having a callus on her right foot, so she blew off her big toe with a shotgun . . . Radio personality John "Kato" Machay's lively compilation of news stories, headlines, and courtroom gaffes proves hands down that truth is dumber than fiction! REMEMBER: To err may be human, but to laugh out loud is divine.

Reference source for the care and preservation of photographs and motion picture film. Evaluates the light fading and dark fading/yellowing characteristics of color transparency films, color negative films, and color photographic papers, with recommendations for the longest-lasting products. High-resolution ink jet, dye sublimation, color electrophotographic, and other digital imaging technologies are discussed, as are conservation matting, mount boards, framing, slide pages, negative and print

enclosures, storage boxes, densitometric monitoring of black-and-white and color prints in museum and archive collections, the care of color slide collections, the permanent preservation of color motion pictures, the preservation of cellulose nitrate films, and many other topics.

This is one in a series of manuals for car or motorcycle owners. Each book provides information on routine maintenance and servicing, with tasks described and photographed in a step-by-step sequence so that even a novice can do the work.

"This is the magnum opus on digital printing and the book to read before color calibrating your monitor or wondering about differences in pigmented and dye-based inks. With little in the way of "how-to," the book focuses more on why and showcases eloquent photographs, including a heartbreakingly beautiful portrait of Marilyn Monroe, a naked World War II bomber tail gunner, and the inevitable "Emperor's New Clothes" work. Equally heartbreaking for far different reasons is Henry Wilhelm's essay "A History of Permanence" that includes a section called "The Totally Lost Kodacolor Era" that will leave you stunned by the corporate callousness that's described. This book not only deserves to be on the bookshelf of anybody who cares about photography, it deserves to be read." -- Joe Farace, Shutterbug Most of us know him as one member of the band Crosby, Stills, Nash and Young, but what you may not know is that at the same time Graham Nash was rocking the world, he was also pursuing a parallel career in photography and digital imaging. Nash Editions—the world's premier fine-art digital printmaking studio, which Graham co-founded with R. Mac Holbert—represents the pinnacle of those efforts. This book uses thought-provoking essays and glorious artwork to sum up not only Nash Editions' achievements but also the state of fine-art digital printmaking. After a brief history of printmaking, you'll reach the heart of the book: an essay by Holbert on the genesis of Nash Editions and fine-art digital printing (which details the studio's interactions with major artists like David Hockney); an essay by MoMA consultant Henry Wilhelm (which includes a technical comparison of traditionally and digitally prepared prints); and commentary from Nash Editions artists. The book's more than 100 illustrations include Nash Editions artwork, photos of artists in the studio, images of the machines used in digital printing, and illustrations of the proofing process.

Living with a tigress is no joke! This is the true story of a Forest Conservator who risked his life and went beyond the call of duty for Khairi, a tigress he considered as his very own. The book offers the perfect balance of a biography and a scientific study. Khairi is so brilliantly brought to life in this book that you almost expect to hear her padding up behind your chair, purring loudly.
