Numbers can be seen just about everywhere! Can your child recognize them on the streets or maybe on these sheets? Help your child get more familiar with numbers by allowing him/her to work on this coloring book. Coloring is a hands-on activity, which makes it a highly effective tool in teaching kids concepts that they can easily remember. Grab a copy now!

Many families with a child with autism or Asperger Syndrome feel that involvement in the community is not for them. This book sets out to change that, with a rich and varied menu of suggestions for how such families can take full part in community life and support the strengths and interests of their child at the same time. Informal learning experiences can be the key to self-discovery, communication, self-confidence, and even independence for many children on the autism spectrum. Only outside the four walls of school will your child truly discover their own passions, abilities, and social peers. *Get Out, Explore, and Have Fun* is a guide to what's out there, how to find it, and how to make it work for your family. The book includes hints and tips for involving your family in the right community activities, from

sport to science; information on museums, arts organizations and science institutions as venues for an enjoyable and enriching day out for the family; and resources and ideas for helping your child build on their strengths, interests, and preferred learning styles to explore life in the community. Handouts about autism are included, as well as handouts suggesting ways in which organisations and institutions can successfully include young people with autism in their activities. This book will open the door to community inclusion, creative exploration, and social learning.

A delightful, delicious, and best-selling account of the gustatory pleasures to be found throughout France, from the beloved author of *A Year in Provence*. The French celebrate food and drink more than any other people, and Peter Mayle shows us just how contagious their enthusiasm can be. We visit the Foire aux Escargots. We attend a truly French marathon, where the beverage of choice is Châteaufort Lafite-Rothschild rather than Gatorade. We search out the most pungent cheese in France, and eavesdrop on a heated debate on the perfect way to prepare an omelet. We even attend a Catholic mass in the village of Richerenches, a sacred event at which thanks are given for the aromatic, mysterious, and breathtakingly expensive black truffle. With Mayle as our charming guide, we come away satisfied (if a little hungry), and with a sudden desire to book a flight to France at once.

The life of Jesus, part 3, and Acts.

Every troubled couple has had it up to here with self-help books explaining how to make relationships work. This one addresses why they don't-and frankly, why some of them never will. In this unique and illuminating he said/she said guide to avoiding love-gone-wrong, 21 real-life couples spill it to widely-read advice columnist Sherry Amatenstein. What better way to make a relationship last than to learn

from the ones that didn't?

What good is financial success if it doesn't lead to fulfillment, satisfaction, and happiness? Toine Knipping, the co-founder and CEO of Amicorp, an independent global provider of company secretarial and fiduciary services, tackles that question head-on in this book. Drawing on wisdom from Tantric masters, who said that the fabric of life can provide true and everlasting fulfillment only when all the threads are woven according to the pattern designated by nature, he reveals how to: Control your wealth and use it well. Encourage and empower employees to give back. Embrace high ethical standards and community involvement. Knipping also describes charitable projects, impact investments, and social enterprises drawn from his personal experience to provide context and show the elements involved in any one investment. From setting up an outsourcing business in India, to starting a social enterprise in South Africa to protect endangered species, to establishing a daycare center in Curacao, you'll be inspired to give back with the lessons in Tantric Impact.

A compilation of more than a dozen previously published Dr. Seuss books, plus essays by nine authors and other book lovers, including Audrey Geisel, widow of Dr. Seuss.

Two bugs, Ralph and Flora, try to divide thirteen beans so that the unlucky thirteenth bean disappears, but they soon discover that the math is not so easy.
