But where should you start if you want to understand how music theory works? As a complete beginner, there are a few concepts you should understand before starting. And don't forget, the best way to learn music theory is just to begin somewhere! Pitches and Notes. A note is the symbol depicting a musical sound. In English though, it also means the sound itself. A frequency or a pitch is a natural phenomena. Frequencies occur all around us, in nature, e.g. when a bird sings or when the wind ...
