It can be set up as a one minute paired activity where students take turns to share their answer to a GCSE question with a partner. One student presents while the other listens and recommends a minimum of one extra word from word bank (and its context) to enhance the answer. The activity is then reversed and repeated.

Classroom activities - For Geography Teachers

A map is a two-dimensional drawing of an area. Maps can show the countryside, a town, a country, a continent, or even the whole world. They're used to help plan routes between places or to find certain places such as a lake or hill. These landmarks are commonly represented by symbols on maps:
