The term “Guided Discovery” refers to a teaching and learning environment where students are actively participating in discovering knowledge. The goal of discovery is to facilitate deep learning on the part of the students – learning that has its basis in fundamental understanding and often arises from viewing a problem from multiple perspectives. The pedagogical underpinning is that if the students discover the knowledge, they will, in the process, have created and added to their own ...

Guided Discovery as a Teaching Method | Open Learning

Guided discovery, also known as an inductive approach, is a technique where a teacher provides examples of a language item and helps the learners to find the rules themselves. Example. The learners are shown a problem page containing various examples of the second conditional 'If I were you,'. They identify the structure and then the rules for making it.

Guided discovery | TeachingEnglish | British Council | BBC

In guided discovery activities, the teacher provides learners with the chance to be exposed to and analyse language in order to help them understand the rules by themselves. By using a task, questions or awareness-raising activities, students are led to identify the use, meaning, form and pronunciation of the target language.
