Health Care Ethics |  
Internet Encyclopedia of  
Philosophy

Four fundamental goals have shaped our system. First, we want high quality health care that can provide the greatest benefits. Second, we want freedom of choice so that we can decide the “who, when, and where” for our health care. Third, we expect our health care to be affordable so that we have resources for all of the other things we need or want.

...

Virtually all of the major health care reform proposals explicitly embrace this principle by making statements to the effect that patients should make their own decisions about their doctors and treatments. If we can agree on the primacy of the patient, then an ethical health care system must promote the patient-as-decision-maker model.
