HIV/AIDS is one of the most serious health concerns in South Africa. The country has the highest number of people afflicted with HIV of any country, and the fourth-highest adult HIV prevalence rate, according to the 2019 United Nations statistics. According to a UNAIDS dataset sourced from the World Bank, in 2019 the HIV prevalence rate for adults aged 15 to 49 was 37% in Swaziland, 25% in Lesotho, 25% in Botswana and 19%
