The book offers an in-depth analysis of the challenges of establishing authority within collaborative efforts. It introduces the concept of cumulative authority, arguing that communicating authority effectively is key to the creation and success of collaborations. Rice uses a communication-as-constitutive of organizations perspective to reconsider organizational authority, typically thought of in terms of leadership, as instead negotiated in communication among collaboration members as they attempt to influence the collaboration 's direction. Drawing from an extensive two-year case study of emergency management collaborations, the book traces potential influences on collaborative authority, including members ' knowledge and expertise, organizational structures and hierarchies, and the material world, including documents, technologies, and the natural environment. This book is a valuable empirical resource for organizational communication and management students and scholars. It will also appeal to community collaborators and organizers, and contains advice and reflection questions for practitioners.

Course Overview This course is designed to help prepare participants for deployment to a domestic incident. Responding to incidents requires that we must be ready, willing, and able to deploy at a moment's notice. This course provides personnel with practical tips and advice for incident deployment. Course Objectives: By the end of this course, participants will be able to: -Prepare for deployment, including detailing what information to gather, what steps to take, and what things to pack. -Check in when arriving at the assigned location. -Acclimate to the working and living conditions at the assigned incident facility. -Take care of

Download File PDF Ics 100 Test Answers

themselves during deployment. -Maintain standards for accountability. -Complete the check-out process. Primary Audience This course is designed for FEMA employees who deploy to domestic incidents. It is suggested that personnel who have not completed the IS-700 and IS-800b courses do so before completing this course.

Course Overview On February 28, 2003, President Bush issued Homeland Security Presidential Directive-5. HSPD-5 directed the Secretary of Homeland Security to develop and administer a National Incident Management System (NIMS). NIMS provides a consistent nationwide template to enable all government, private-sector, and nongovernmental organizations to work together during domestic incidents. You can also find information about NIMS at <http://www.fema.gov/nims/> This course introduces NIMS and takes approximately three hours to complete. It explains the purpose, principles, key components and benefits of NIMS. The course also contains "Planning Activity" screens giving you an opportunity to complete some planning tasks during this course. The planning activity screens are printable so that you can use them after you complete the course. What will I be able to do when I finish this course? * Describe the key concepts and principles underlying NIMS. * Identify the benefits of using ICS as the national incident management model. * Describe when it is appropriate to institute an Area Command. * Describe when it is appropriate to institute a Multiagency Coordination System. * Describe the benefits of using a Joint Information System (JIS) for public information. * Identify the ways in which NIMS affects preparedness. * Describe how NIMS affects how resources are managed. * Describe the advantages of common communication and information management systems. * Explain how NIMS influences technology and technology systems. * Describe the purpose of the NIMS Integration Center CEUs: 0.3

EMI has revised the ICS 100 course to reflect lessons learned since its release in 2006. This course is NIMS compliant and uses the objectives developed collaboratively by the National Wildfire Coordinating Group, the United States Fire Administration, the United States Department of Agriculture and the Emergency Management Institute. Note: IS-100.b is an updated version of the IS-100.a course. If you have successfully completed IS-100 or IS-100.a, you may want to review the new version of the course. For credentialing purposes, the courses are equivalent. ICS 100, Introduction to the Incident Command System, introduces the Incident Command System (ICS) and provides the foundation for higher level ICS training. This course describes the history, features and principles, and organizational structure of the Incident Command System. It also explains the relationship between ICS and the National Incident Management System (NIMS). The Emergency Management Institute developed its ICS courses collaboratively with: -National Wildfire Coordinating Group (NWCG) -U.S. Department of Agriculture -United States Fire Administration's National Fire Programs Branch NIMS Compliance This course is NIMS compliant and meets the NIMS Baseline Training requirements for I-100.

ICS 100, Introduction to the Incident Command System, introduces the Incident Command System (ICS) and provides the foundation for higher level ICS training. This course describes the history, features and principles, and organizational structure of the Incident Command System.
