Conservation Model A Framework

Levine's Conservation Model provides  
a useful structure for older adult care  
in the long term care setting. As an  
ideal care manager, the AGNP would  
be well served to consider use of the  
model to guide advanced nursing  
practice. Recommendations for  
clinical practice, research, and health  
policy.

maintaining wholeness by conserving energy, structure, and person and social integrity (Levine, 1967).

Targeted interventions that promote energy and integrity are the foundation for advanced practice.

## Levine's Conservation Model: A Framework for Advanced ...

'Levine's Conservation Model' was initially developed to provide an organizing framework for teaching the fundamental principles of nursing. As students of Levine moved into their professional roles, they used these principles (conservation of energy, structural integrity, personal integrity and social integrity) as a basis for the care they provided to patients.
