One of the most critical skills that occupational therapists must learn is effective documentation. With that idea in mind, Documentation Manual for Occupational Therapy: Writing SOAP Notes, Fourth Edition presents a systematic approach to a standard form of health care documentation: the SOAP note. The clinical reasoning skills underlying SOAP note documentation can be adapted to fit the written or electronic documentation requirements of nearly any occupational therapy practice setting. This new Fourth Edition has been updated to reflect current information essential to contemporary occupational therapy practice, including the AOTA's Occupational Therapy Practice Framework: Domain & Process, Third Edition. Documentation Manual for Occupational Therapy, Fourth Edition also includes the COAST method, a specific format for writing occupation-based goals. Crystal Gateley and Sherry Borcharding use a "how-to" strategy by breaking up the documentation process into a step-by-step sequence. Numerous worksheets are provided to practice each individual skill as well as the entire SOAP note process. In addition, examples from a variety of practice settings are included as a reference. Although this text addresses documentation in occupational therapy practice, the concepts can be generalized across other health care disciplines as well. New in the Fourth Edition: The chapter focusing on reimbursement, legal, and ethical considerations has been vastly expanded to provide an overview of sources of reimbursement, regulatory guidelines, and legal and ethical issues. A new chapter focusing on electronic documentation has been added to illustrate how the concepts presented in this text can be used in various electronic documentation software products. Faculty will have access to 12 videos that can be used for instructional purposes and documentation practice. This edition includes an expanded Instructor's Manual with sample quiz questions for several of the chapters, templates and grading rubrics for documentation assignments, and other instructional resources. Instructors in educational settings can visit [www.efacultyounge.com](#) for additional material to be used for teaching in the classroom. Documentation Manual for Occupational Therapy: Writing SOAP Notes, Fourth Edition presents essential documentation skills that all occupational therapy clinicians, faculty, and students will find critical for assessing, treating, and offering the best evidence available for their clients.

Manual focusing on documenting the occupational therapy process. Each skill is broken down into small steps and taught individually. Includes a template for writing problems, goals, and each section of the SOAP note. Also includes practice worksheets and detachable checklist and summary.

Written specifically for occupational therapy assistants, The OTA's Guide to Writing SOAP Notes, Second Edition is updated to include new features and information. This valuable text contains the step-by-step instruction needed to learn the documentation required for reimbursement in occupational therapy. With the current changes in healthcare, proper documentation of client care is essential to meeting legal and ethical standards for reimbursement of services. Written in an easy-to-read format, this new edition by Sherry Borcharding and Marie J. Morreale will continue to aid occupational therapy assistants in learning to write SOAP notes that will be reimbursable under Medicare Part B and managed care for different areas of clinical practice. New Features in the Second Edition: • Incorporated throughout the text is the Occupational Therapy Practice Framework, along with updated AOTA documents • More examples of pediatrics, hand therapy, and mental health • Updated and additional worksheets • Review of grammar/documentation mistakes • Worksheets for deciphering physician orders, as well as expanded worksheets for medical abbreviations • Updated information on billing codes, HIPAA, management of health information, medical records, and electronic documentation • Expanded information on the OT process for the OTA to fully understand documentation and the OTA's role in all stages of treatment, including referral, evaluation, intervention plan, and discharge • Documentation of physical agent modalities With reorganized and shorter chapters, The OTA's Guide to Writing SOAP Notes, Second Edition is the essential text to providing instruction in writing SOAP notes specifically aimed at the OTA practitioner and student. This exceptional edition offers both the necessary instruction and multiple opportunities to practice, as skills are built on each other in a logical manner. Templates are provided for beginning students to use in formatting SOAP notes, and the task of documentation is broken down into small units to make learning easier. A detachable summary sheet is included that can be pulled out and carried to clinical sites as a reminder of the necessary contents for a SOAP note. " Answers " are provided for all worksheets so that the text can be used for independent study if desired. Updated information, expanded discussions, and reorganized learning tools make The OTA's Guide to Writing SOAP Notes, Second Edition a must-have for all occupational therapy assistant students! This text is the essential resource needed to master professional documentation skills in today's healthcare environment.

Rely on the guide that has helped thousands of students pass their exams with exactly the practice they need. The 4th Edition mirrors the latest NBCOT exam blueprint and the question formats—multiple-choice and simulation at the difficulty level and in the decision-making style of the actual exam. More than 1,000 questions in five practice exams help you identify your strengths and weaknesses while you improve your test-taking performance.

Now updated to its Fourth Edition, The OTA's Guide to Documentation: Writing SOAP Notes contains the step-by-step instruction needed to learn occupational therapy documentation and meet the legal, ethical, and professional documentation standards required for clinical practice and reimbursement of services.
