That's way too big to fit in a rocket, so NASA has developed a way of folding it – like you would origami – for launch. In fact, NASA brought in origami experts to help create the perfect design. Follow their lead and make your own paper origami model of Starshade's "inner disk optical shield" following the steps below.

### Student Project: Space Origami: Make Your Own Starshade ...

Fold with clean hands. Make sure the square is really square. Be precise. Accuracy is vital because errors multiply quickly. Slow down and give yourself enough time to finish a model (it always takes longer than you think). Always fold the paper away from you rather than towards you.
