Polaris® HD 2,500 lb. Winch | Polaris Sportsman

A good rule of thumb is to choose a size of winch that has a rated pulling capacity of about 1.5 times the gross weight of the ATV. A rating of 2500 lbs to 3500 lbs will be suitable for most ATV winching applications. Smaller ATVs require a smaller winch than larger machines do. How do you determine what size of winch you need for your bike?

What size ATV winch do you need? (with examples)
