Leicester Musical Memory Box | Leicester City

Musical memory refers to the ability to remember music-related information, such as melodic content and other progressions of tones or pitches. The differences found between linguistic memory and musical memory have led researchers to theorize that musical memory is encoded differently from language and may constitute an independent part of the phonological loop.

Remixing the world, one sound at a time. Cities and Memory is a global collaborative sound project encompassing field recording, sound art and sound mapping - remixing the world, one sound at a time. Every location on the Cities and Memory sound map features two sounds: the original field recording of that place, and a reimagined sound that presents that place and time as somewhere else, somewhere new.
