The Science Break

break - force out or release suddenly and often violently something pent up; 'break into tears'; 'erupt in anger' burst , erupt express emotion , express feelings - give verbal or other expression to one's feelings

Breaking out - definition of breaking out by The Free ...

Researchers have found that there is a connection between the polar vortex and Arctic sea ice. Each year Arctic sea ice waxes and wanes with the seasons, but over the past few decades there has been an overall loss of sea ice because of warming in the Arctic. Sea ice reached record low levels this year. (For example, take a look at the graph of November sea ice amounts below.)

Why the Polar Vortex Keeps Breaking out of the Arctic ...
