"Do you have a favorite sound?" little Yoshio asks. The musician answers, "The most beautiful sound is the sound of ma, of silence." But Yoshio lives in Tokyo, Japan: a giant, noisy, busy city. He hears shoes squishing through puddles, trains whooshing, cars beeping, and families laughing. Tokyo is like a symphony hall! Where is silence? Join Yoshio on his journey through the hustle and bustle of the city to find the most beautiful sound of all.

John Cage is the outstanding composer of avant-garde music today. The Saturday Review said of him: "Cage possesses one of the rarest qualities of the true creator- that of an original mind- and whether that originality pleases, irritates, amuses or outrages is irrelevant." "He refuses to sermonize or pontificate. What John Cage offers is more refreshing, more spirited, much more fun-a kind of carefree skinny-dipping in the infinite. It's what's happening now." "The American Record Guide "There is no such thing as an empty space or an empty time. There is always something to see, something to

hear. In fact, try as we may to make a silence, we cannot. Sounds occur whether intended or not; the psychological turning in direction of those not intended seems at first to be a giving up of everything that belongs to humanity. But one must see that humanity and nature, not separate, are in this world together, that nothing was lost when everything was given away.□

First performed at the midpoint of the twentieth century, John Cage's 4'33", a composition conceived of without a single musical note, is among the most celebrated and ballyhooed cultural gestures in the history of modern music. A meditation on the act of listening and the nature of performance, Cage's controversial piece became the iconic statement of the meaning of silence in art and is a landmark work of American music. In this book, Kyle Gann, one of the nation's leading music critics, explains 4'33" as a unique moment in American culture and musical composition. Finding resemblances and resonances of 4'33" in artworks as wide-ranging as the paintings of the Hudson River School and the music of John Lennon and Yoko Ono, he provides much-needed cultural context for this fundamentally challenging and often misunderstood piece. Gann also explores Cage's craft, describing in illuminating detail the musical, philosophical, and even environmental influences that informed this groundbreaking piece of music. Having performed 4'33" himself and as a composer in his own right, Gann offers the reader both an expert's analysis and a highly personal interpretation of Cage's most divisive work.
