Yay?nda 19 Aral?k 2018. An important update of the Landirengo Omegas calibration software has been released, now in version 4.2.0.33, which introduced some new features. Among the most important we can mention the linear autocalibration and the new oscilloscope, but the new firmware and a simplified initial interface have also been implemented. Another step to make everyday operations in the workshop easier. The update is available in the reserved area of the Landirengo.com website.
